|------------------------------------------------------------------------------------|------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  | Doctype                            | HTML 5                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|  | Verschlüsselung                    | Perfekt, denn Ihre Webseite deklariert einen Zeichensatz: UTF-8.                                                                                                                                                                                                                                                                                                                                                                                                                                |
|  | W3C Validität                      | Fehler : 28<br>Warnungen : 27                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|  | E-Mail Datenschutz                 | Sehr gut, denn es wurde keine E-Mail Adresse im Klartext auf Ihrer Webseite gefunden.                                                                                                                                                                                                                                                                                                                                                                                                           |
|  | Veraltetes HTML                    | Sehr gut! Sie verwenden aktuelle HTML Tags in Ihrem Webseitenquelltext.                                                                                                                                                                                                                                                                                                                                                                                                                         |
|  | Tipps zur Webseitengeschwindigkeit | <div>  Sehr gut, denn Ihre Webseite benutzt keine verschachtelten Tabellen. </div> <div>  Perfekt. Es wurden keine CSS-Angaben in HTML-Elementen entdeckt! </div> <div>  Gut, denn Ihre Webseite enthält nur wenig CSS-Dateien. </div> |

## Dokument

Perfekt, denn Ihre Webseite enthält nur wenig Javascript-Dateien.

Ihre Webseite nutzt die Vorteile von gzip nicht.

## Mobile

### Mobile Optimierung

Apple Icon

META Viewport Tag

Flash Inhalt

## Optimierung

### XML-Sitemap

Perfekt! Ihre Seite hat eine XML-Sitemap.

<http://whocanapplyforestausa.blogspot.com/sitemap.xml>

<https://whocanapplyforestausa.blogspot.com/sitemap.xml>

### Robots.txt

<http://whocanapplyforestausa.blogspot.com/robots.txt>

Sehr gut! Ihre Webseite enthält eine robots.txt-Datei.

### Analytics

Fehlt

Wir haben nicht ein Analyse-Tool auf dieser Website installiert zu erkennen.

Webanalyse erlaubt die Quantifizierung der Besucherinteraktionen mit Ihrer Seite. Insofern sollte zumindest ein Analysetool installiert werden. Um die Befunde abzusichern, empfiehlt sich das parallele Verwenden eines zweiten Tools.
