- [H5] Turmeric is an anti-inflammatory, and antioxidant. The active ingredient in turmeric, curcumin, makes insulin more sensitive and reduces blood sugar. Turmeric can reduce inflammation, which is one of the major factors in diabetes. Turmeric's antioxidant properties protect the body from oxidative stresses that are common in diabetic conditions.
- [H5] The cocoa bean extract contains flavonoids, which are potent antioxidants. These compounds make insulin more sensitive and reduce oxidative stress. Cocoa flavonoids improve endothelial functions and reduce the risk of cardiovascular issues associated with diabetes.
- [H5] The berry of the juniper tree has been used for centuries to treat diabetes. It increases insulin production and glucose absorption by cells to regulate blood sugar. Antioxidant properties of the berry protect against cell damage due to high blood sugar.
- [H5] Banaba leaves lower blood sugar. Banaba's corosolic acid mimics insulin, allowing glucose to enter cells more effectively. This results in better control of blood sugar and a reduced risk of complications due to prolonged high glucose.
- [H5] Eleuthero, also known as Siberian Ginseng, is an adaptogen that helps the body to manage stress. Eleuthero reduces stress, which can help to stabilize blood sugar levels.

SEO Content

		Eleuthero also promotes overall energy and stamina, which is beneficial for diabetics. • [H5] Gymnema has been called "sugar-destroying" because it lowers sugar absorption. It regenerates the insulin-producing cells in your pancreas, which is beneficial for those with type 2 diabetes. Gymnema is a powerful diabetes ingredient because of its dual action. • [H5] Pine bark extract contains proanthocyanidins, which are potent antioxidants. These compounds increase blood flow and reduce oxidative stress. People with diabetes benefit from improved circulation as it helps prevent neuropathy and slow wound healing. • [H5] Butcher's Broom is beneficial for diabetics who are at risk of vascular complications. It increases blood circulation and reduces swelling, which helps to manage diabetes symptoms. • [H6] Retail Price: \$55 Today, Get it for FREE • [H6] Retail Price: \$54 Today, Get it for FREE • [H6] Am I a CelluCare candidate? • [H6] How should I take CelluCare the best? • [H6] How soon will I see the results? • [H6] What happens if CelluCare does not work for me? • [H6] How long will it take to deliver my order?
